DETAILED ACTION

Allowable Subject Matter

Claims 40-80 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest a device or method having all of the limitations of claims 40 and 67. Essentially, the arguments presented by Applicant in the Remarks accompanying the Amendment of February 17, 2004 are persuasive. In particular, it is noted that Liberman teaches away from the claimed invention by disclosing a system where the materials to be sold are transported separately from the trailer used for demonstration purposes. As a result, there is no motivation to combine the teachings of Liberman with those of Crowley or MGH. Applicant's arguments that MGH does not disclose a mobile MRI system despite the erroneous headline, as well as the arguments concerning the distinction between a mobile MRI system and a remotely positionable system, as it pertains to the Crowley reference, are also persuasive. As a result, claims 40 and 67, and all claims dependent therefrom, are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
